Github: https://github.com/sabeena0 **Mobile:** +91-7509316212

SKILLS

Languages: Python, C, C++, Java, SQL
Frameworks: HTML and CSS
Tools/Platforms: MySQL Workbench, Power BI, Microsoft Excel, Jupyter, VSCode
Soft Skills: Problem-Solving, Team Work, Adaptability, Time Management
Relevant Coursework: Data Structures and Algorithms, Database Management System, Operating System, Computer networks, Software engineering

INTERNSHIP

InternPro – Data Science Intern | **Completion certificate** Jul' 25

- Applied Python for data cleaning, Exploratory Data Analysis, and visualization to identify seasonal trends, monthly averages, extreme weather patterns.
- Built and evaluated predictive model for weather forecasting and collaborated with the team to deliver the project ahead of schedule, earning a Letter of Recommendation.

Tech Stacks used: Python, NumPy, Pandas, Seaborn, Matplotlib, Scikit-learn

PROJECTS

Air Quality Analysis and Pollution hotspot detection | **Github** Mar' 25

- Analyzed air quality dataset by government of India using Python to identify pollution trends, most affected cities, and key pollutant contributors.
- Created clear visualizations using Matplotlib, Seaborn, and Plotly to present pollutant patterns, hotspot areas, and city-wise comparisons.

Tech Stacks Used: Python, Pandas, Seaborn, Matplotlib, Plotly, Geo-mapping

New York Police Department Arrest Dashboard | **Link** Apr' 25

- Built an interactive Excel dashboard using New York Police Department arrest data, analyzing crime trends, top offenses, borough distribution, and demographics.
- Used pivot tables, charts, slicers, and dynamic Excel features to create a clean, insights-driven analytical dashboard.

Tech Stacks Used: Microsoft Excel, Pivot Tables, Charts, Slicers, VLOOKUP, Data Preprocessing|

TRAINING

Fundamentals of data Structures- Learn, apply and build projects | **GitHub** Jul' 25
Lovely Professional University

- Completed 5-week training at Lovely Professional University on Fundamentals of Data Structures, applying concepts to design and build a fully functional Library Management System using Java & Swing
- Implemented core data-structure operations such as searching, updating, issuing, and managing books using ArrayLists and HashMaps, and developed a complete GUI interface showcasing book addition, deletion, issuing, returning, and inventory display.

Tech stacks used: Java, Swing (GUI), Data Structures (HashMap, ArrayList), OOP Principles

CERTIFICATES AND CERTIFICATIONS

Cloud Computing | **NPTEL** May' 25
Introduction to Hardware and Operating Systems | **coursera** Sep' 24
Responsive web design certification | **Freecodecamp** Oct' 23

ACHIEVEMENTS

- 5 star badge on HackerRank in C++ programming Feb' 26
- 5 star badge on HackerRank in problem solving
- Contest rating of 1,449 and 50 days badge on leetcode

EDUCATION

Lovely Professional University Phagwara, Punjab
Bachelor of technology Aug'23 – Present
Computer Science and Engineering | CGPA: 8.94

Jindal Adarsh Gramya Bharti School Raigarh, Chhattisgarh
Intermediate Jun' 22 - Mar'23
PCM | Percentage: 88.88%

Jindal Adarsh Gramya Bharti School Raigarh, Chhattisgarh
Matriculation Jun' 20 - Mar' 21
Percentage: 97%
